SUMMARY

Frontend Developer | UI/UX Design Specialist

Experienced front-end developer with over 2.5 years of expertise in crafting visually appealing and user-centric web applications. Proficient in HTML, CSS, JavaScript, and modern front-end frameworks to build responsive, intuitive, and high-performance user interfaces. Adept at UI/UX design principles, ensuring seamless user experiences while delivering clean, maintainable code. Passionate about continuously improving web performance and accessibility. A strong communicator with a collaborative mindset committed to providing innovative solutions that meet user and business needs.

EDUCATIONAL BACKGROUND

African Leadership University – Kigali, Rwanda   **September, 2022– August, 2025**

Bachelor of Software Engineering

Relevant Coursework: Software Development, Python, Frontend & Backend Development, Entrepreneurial Leadership, Problem Solving.

Es Kanombe/Efotec– Kigali, Rwanda   **January 2018 – July 2021**

Physics Chemistry Biology

I held **100%** in the National ExaminationDuring my studies, I completed relevant coursework in **Physics**, including Mechanics, Thermodynamics, and Optics. In **Chemistry**, I focused on Physical and Organic Chemistry, while in **Biology**, I studied General Biology, Cellular Biology, and Human Anatomy. Alongside these subjects, I developed strong **problem-solving** and **critical thinking** skills, gained experience in **basic programming**, and honed my abilities with **analytical tools**.

PROFESSIONAL WORK EXPERIENCE

Front-end developer – Kigali, Rwanda   **September 2024– December 2024**

Front-end developer at Kitech

Designed and developed multiple web applications, including **Butiki websites** and **Inyungura Green Academy**, building them from scratch using Figma, HTML, CSS, and JavaScript. Created interactive and user-friendly platforms, ensuring smooth functionality and seamless user experiences. Leveraged **React.js** for enhanced interactivity in various projects, including a holiday tour website, to deliver dynamic and responsive web solutions. Contributed to streamlining project delivery timelines, while enhancing user engagement through thoughtful design and efficient development practices.

Front-end development - Kigali, Rwanda   **January 2024 – April 2024**

During my academic internship at Tost Group, I had the chance to expand my knowledge and apply web development skills in **HTML**, **CSS**, and **JavaScript**. Throughout the internship, I focused on developing and refining the front-end design for several websites, working closely with experienced developers. This hands-on experience allowed me to apply the concepts I had learned in my studies, while also improving my coding, debugging, and optimization skills. My main goal was to ensure the websites were responsive, user-friendly, and visually appealing. This internship not only helped me strengthen my technical abilities but also highlighted the gap between the knowledge I had acquired and the skills needed in a real-world workplace.

SheCanCode Bootcamp -Kigali, Rwanda   **October 2024 – January 2025**

I attended the Fundamentals of Web Development Bootcamp at SheCanCODE, where I gained a strong foundation in essential web development skills. Throughout the Bootcamp, I learned the basics of graphic design, including the use of **Figma** for creating designs and prototypes. I also developed an understanding of **WordPress**, as well as version control tools like **Git** and **GitHub**, which allowed me to manage and collaborate on coding projects efficiently.

In addition to these core skills, I had the opportunity to work on several hands-on projects where I applied my knowledge of **HTML**, **CSS**, and **JavaScript** to build and style web pages. This experience helped me improve my coding skills, problem-solving abilities, and attention to detail. I am now more confident in designing responsive websites and collaborating effectively with teams on development projects. This Bootcamp was a key stepping stone in my journey toward becoming a skilled web developer.

**Community   Campaign,
May,2021–August, 2023
African Leadership University – Kigali, Rwanda**

- Organized and led campaigns aimed at raising awareness about **gender discrimination** and promoting **women's education** in **South Sudan**.
- Coordinated outreach efforts to ensure the success and visibility of campaigns within the community.

**Community Giveback Volunteer   January 2023
Eastern Province, Rwanda**

- Supported **unemployed communities** by providing resources, mentorship, and guidance to help improve their living standards.

SKILLS

- **UI/UX Design**: Proficient in designing user-centered interfaces with a focus on usability and visual appeal.
- **Version Control**: Experienced with **Git** and **GitHub** for efficient source code management and collaboration.
- **Frontend Development**: Strong knowledge of **HTML5**, **CSS3**, TailWind CSS, **JavaScript**, TypeScript, and **React JS** for building dynamic and responsive web Applications.
